

VERTICAL CHECKWEIGHER

CW-60K-V

CW-60K-V checkweigher has wide weighing range but high accuracy guarantee. It is perfect for weighing the various bags and boxes running in vertical way in the production line.

- Standard module design for easy installation and maintenance;
- Easy integrating in the production line;
- Maximum capacity: 60kg, weighing accuracy is within $\pm 20\text{g}$;

Multiple applications

60kg
Maximum capacity

$\pm 10\text{g}$
Best accuracy

50 Pcs/min
Highest speed

Specification

Model	CW-60K-V
Maximum capacity	60kg
Best accuracy*	$\pm 10\text{g}$
Highest speed*	$\leq 50\text{pcs/min}$
Belt speed	40m/min
Conveyor size	800mm*400mm
Distance between rollers	800mm
Weighing platform height	400+100mm/-50mm
Structure material	Carbon Steel, S304 (weighingPlatform)
Belt material	PVC (black)
Display	10-inch touch screen
Power	AC220V $\pm 10\%$, 50/60Hz, 825W
Working temperature	0~40°C
IP grade	IP54

*It depends on the features of tested object, such as size and weight.
