GRANULE PACKING FILLER
(Large Particle Version)
AF-50K

10-50kg
Weighing range

Stable Performance

Easy Installation

20-30g
Accuracy range
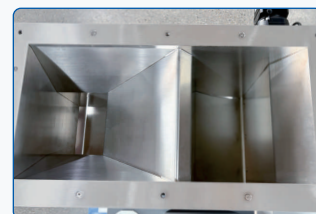

Servo Motor Control

Weighing Accurate

900 Pcs/h
Speed

Gravity Feeding+ Vibrator Feeding

Material intake upgrade

Features:

• **Granular material:** design for large particles, such as wood pellets, animal feeds pellets, nuts, large particle dog foods, cat litter pellets and so on;

• **Material intake upgrade:** enlarger the material intake for large particles, preventing material blockage;

• **Stable performance:** servo motor controls feeding process;

• **Module design:** easy installation and dismounting;

• **Weighing accurate:** weighing range is 10-50kg. Speed can reach 900 pcs/h, and accuracy range 20-30g.

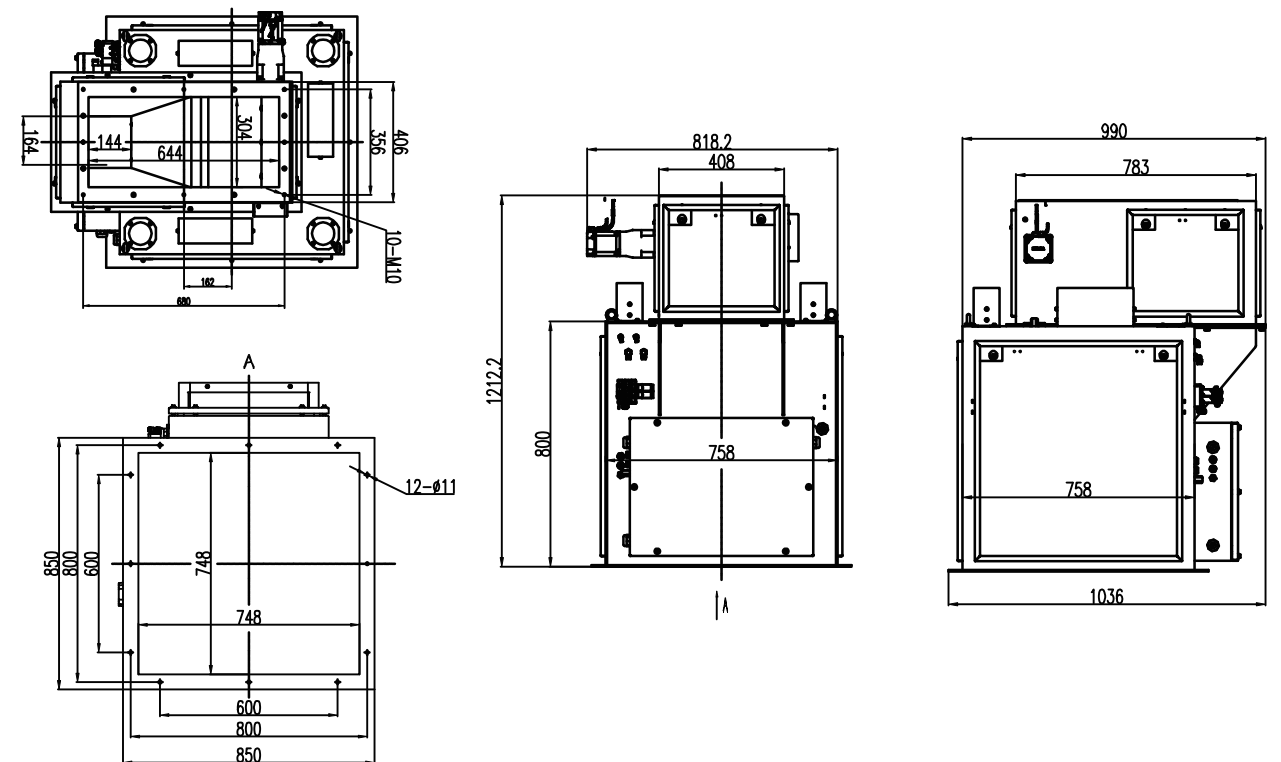

Specification

Specification	
Model	PaxGO AF-50K(Large Particle Version)
Weighing range	10~50Kg
Division	2g
Accuracy range*	20-30g
Speed*	900pcs/h
Volume	86L
Feeding method	Feeding control by servo, pneumatic discharging
Material	SS304,carbon steel
I/O	8 output(5V),8 input(24V)
Communication	RS485,Modbus TCP/IP
Pneumatic	0.4~0.6MPa
Power	Single Phase AC-220V ±10%,50/60HZ,1KW
Working environment	0~40°C，90%R.H condensation is not allowed

*Accuracy and speed depend on the material characteristics and packing weight.

Structure & Dimension   Unit: mm

*Specification and dimension may be upgraded, please consult sales manager for the latest info.
